

Want To Keep Your  
**Hot-Market Commissions** Coming—  
*Even In The Midst Of A Slowdown?*

Dear Realtor:

It's not your imagination – those commission checks are actually getting smaller and less frequent.

Thankfully, the bubble didn't burst. But it is leaking. Houses are staying on the market longer, and prices are softening. Of course, you didn't need me to tell you that – your wallet has already noticed. Even if you're still doing pretty well, it's **not as good as it was when the market was hot.**

But you know what? It can be.

A Surprisingly Simple Secret That Will Help You  
**Sell More Properties Faster**

What if I told you there is a way to not only get **30% more calls** on your listings, but to position yourself as **the market leader** at the same time?

That yours could be **the first name to come to mind** when anyone in your town thinks of listing a property? That **your number** could be **the first number** a potential buyer decides to call?

It's not only possible – it's remarkably easy. Because we've taken the concept of a "vanity" toll-free phone number to a whole new level.

Introducing: A Number **Even Your Competition Will Remember**

By adding your name to 877-NAME-SOLD, you show potential clients that you are the one who will close their property. And once they've seen it, your clients and competitors alike will **never forget your number.**

Be the market leader in your community – and keep those hot-market commissions coming despite the slowdown. Call 1-877-NAME-SOLD, or visit [www.800SOLD.com](http://www.800SOLD.com) today to find out how.

Sincerely,  
Andy Pham, 877-NAME-SOLD

P.S. – You really can opt out of the slowdown. But **names are limited and going fast** – so don't wait – call 1-877-NAME-SOLD or visit [www.800SOLD.com](http://www.800SOLD.com) today!
