WHY Does Converting A Simple Document TO PDF Have To Be So *Expensive*?

Friday, 2:44 PM

Dear Friend:

It's ridiculous!

All you need to do is convert a simple document – whether it's in Word, PowerPoint, or any number of other programs – into PDF format. What's so difficult about that?

Apparently a lot.

Because if you go look at the "big guy's" software, you're going to pay over \$250.00! Well, that *might* be worth it if you needed to convert hundreds of documents. But what if you only need a handful? Or even just one?

Then there are the knock-offs. Download one of these, for \$40 or \$50, and you can make PDF's all right - **IF** you can decipher their software.

But that's still an awful lot of money for just a handful of documents.

You Don't Have To Spend That Much!

Finally! There's a way to get the PDF's you need, without spending a fortune on software you'll rarely use. For as little as **\$.07 a day** you can convert an *unlimited number of documents for an entire year!*

And that's any kind of document - Word, PowerPoint, Excel... If you can print it, we can convert it.

But the difference is, **we do it for a fraction of the price!**

There is just *no reason* why you should have to spend hundreds of dollars - or even \$40 for that matter - on something so simple as PDF conversion.

You won't have to waste time struggling to understand new software, or chain yourself to a single computer to create your PDF's. With PDF4U, you can convert any document with the click of a mouse from any computer in the world with internet access.

It's simple. It's easy. It's amazingly inexpensive! There's really no reason *not* to join!

Two Easy Ways To Convert

I've never believed in one-size-fits-all, especially with services. So, I've created two simple ways to convert your documents:

You can [upload your document](#) directly from your computer to our server. With this method you can:

- Use any computer in the world with Internet access
- Convert Word, PowerPoint, and Postscript files (the vast majority of all the files we convert)
- And never have to download any software!

Once uploaded, your document will be converted to PDF and sent to the email address you specify.

If, on the other hand, you need a bit more flexibility, you can download our [FREE PDF4U Printer](#). Use it to:

- Convert **ANY** type of document – If you can print it, we can convert it!
- Save time by keeping your browser closed. There's no need to navigate to our site – the PDF4U Printer takes care of it all!
