True Stories And Soothing Melodies That Will Carry You Away

New Artist Nick Shelton bares his soul in this collection of stories – most of which are true, from his own experiences – in a groundbreaking CD that will touch your very core.

“When I found out that your CD is based off actual experiences that you’ve had, it changed the way I listened to it. Wow! Thanks for opening up and sharing with us.”

-- Yumiko K

Stories of love’s first blush, the icy stab of rejection, and the dull ache of loneliness are accompanied by soft melodies and soothing nature sounds. Whether you have a whole evening to relax, or just need to de-stress during a short break, Nick’s soothing voice and quiet melodies will *carry you away* as you share in both his joy and sorrow.

“Very Unique!

I had to listen to it a couple of times before it really sunk in. But once it sunk in, I couldn’t let it go. I think about it all the time.”

-- Michelle G.

Savor The Bittersweet Experience

High atop a mountain, in a quiet winter cabin, a man sits before a crackling fire – alone. He writes a letter – a beautiful, stirring love letter that would melt the coldest heart.

He pours his soul onto the paper. It’s a love for the ages, undying and unmatched. The kind of love wars are fought for. The kind of love worth dying for.

He carefully folds the paper and seals it in the envelope. But what he does next will **take your breath away** as you realize the depth of his loneliness and longing.

A Masterpiece That Will Be With You Forever

The First Rose is a masterpiece of storytelling – but that’s only the beginning. As each story unfolds, a soft musical score and just the right mix of background sounds enhance it. These elements weave seamlessly together to **create an experience that will literally transport you.**

“You were really able to ‘take me there’ with you. You captured the moments strongly enough for the stories to stay with me after I was done listening.”

-- Tina H.

You’ll feel as if you’re there – on sandy Caribbean beaches, Mexican border towns, even a mid-town coffee shop. And what happens in these places will *be with you forever.*
